

April 11, 2014

To whom it may concern:

Cadillac Culvert Inc. manufactures all of its corrugated metal pipe in accordance to current AASHTO M-36 and ASTM A7690M specifications.

Our galvanized products are manufactured using materials specified in AASHTO M-218 and ASTM A939. Polymeric products are manufactured using materials specified in AASHTO M-245 and ASTM A-762. Aluminized products are manufactured using materials specified in ASTM A 792/792M.

Galvanizing for structural fabricated shapes meets specification A123.

All products meet or exceed current MDOT specifications.

Our products are manufactured at our Cadillac, Michigan facility using domestic materials and supplies. This includes but is not limited to the following products: corrugated metal pipe, connecting bands, end sections, specialty fabrications and outfall plates.

If you have any questions, please feel free to call at any time.

Sincerely,

Don Aldrich
